

Nursing 84L

Objectives of Alternate Clinical Experience (ACE Day)

Before each ACE Day, the student will be able to:

1. Describe the usual type of care or service the ACE setting provides. (You may need to do some research ahead of time so you know what to expect.)

After each ACE Day, the student will be able to:

1. Describe the role of the nurse in the ACE setting.
 - a. If the ACE Day is with another health care team member, you will be able to describe their role and how this member interacts with the nurse in the provision of patient care.
2. Compare and contrast the care in the ACE setting for the geriatric patient to that of a younger adult.

You will give a brief verbal report in postconference of your experience and description of attaining the above objectives.
