

About the Survey

The CCSSE is administered in the spring quarter to credit students and gathers information about their overall college experience. De Anza College previously participated in 2007, 2009, and 2012.

The survey focuses on educational practices and student behaviors associated with higher levels of learning, persistence and completion.

All faculty members teaching in the spring were included in a pool from which a random sample of course sections were chosen to administer the survey. This resulted in 1,182 valid responses.

Student Responses

How would you evaluate your entire educational experience at De Anza?

82% of students stated that they had a good or excellent experience at De Anza. This rate dropped slightly from 85% in 2012 and 2007 and 89% in 2009.

How much does De Anza encourage you to spend significant amounts of time studying?

74% of students stated they are very much or quite a bit encouraged to spend significant amounts of time studying, compared to 74% in 2012, 70% in 2009, and 71% in 2007.

How much does De Anza provide you the support you need to be successful?

67% of respondents stated that De Anza provided quite a bit or very much of the support they needed to help them be successful. This rate slightly dropped from 68% in 2012 and 2009 and is up from 61% in 2007.

### Institutional Core Competencies

Questions relating to our Institutional Core Competencies were included in this year's survey. The responses will be used to inform part of the assessment process for institutional learning outcomes.

- 49% of respondents stated they were more than halfway through to completion of their educational goal, 19% stated they had started this year, 17% are less than halfway to completion and 16% were not sure when they would complete.

#### My experience at De Anza College has increased my ability to.....

Note: Includes students who chose 'very much' or quite a bit'.

- Over 55% of respondents stated that their experience at De Anza increased their ability in the areas listed with the exception of ability to explore career choices and life goals (51%).
