Closing

*all times subject to change

**Workshop descriptions on backside

Sarahi E. Salamanca

Sarahi Espinoza Salamanca is the Founder and CEO of DREAMers Roadmap, a mobile app platform that helps undocumented students across the country navigate the necessary resources to access higher education. This is Sarahi's latest project in a longer trajectory of activism within and for the undocumented community, which have placed her in the spotlight of continued conversations centered on national immigration policy.

Sarahi was a Champion of Change at the White House in 2014, has received 2 House of Representatives Awards, and was recently named in Forbes 30 under 30. A former undocumented student who once had to drop out of school to support her family, Sarahi's personal experience informs her unwavering vision: to help hundreds of thousands of students eliminate the barriers to success and achieve their full potential.

How To: Be an Effective and Empowering Ally in the Undocumented Student Movement by Shaila Ramos

Do you consider yourself and ally to undocumented students? Come learn how to be a responsible and empowering ally! You will learn what an ally is, and how to use your privilege to help empower the movement and be part of the movement to advocate for undocumented student rights.

Healing, Connection and Reconciliation by Jose Ivan Arreola

OR

Laws and Policies Affecting Undocumented Students by Marcus Tang, J.D. (at MCC 13)

This workshop is intended to provide participants with tools, skills and insights meant to support their overall emotional and mental healing as well as their ability to respond to moments of crisis or challenges. The UndocuHealing Project is an initiative which is committed to the holistic healing of undocumented communities and political movements.

This session will provide educators, staff, and other allies with information about the education and immigration legal framework affecting undocumented students. Topics will include Deferred Action for Childhood Arrivals, AB 540, the California DREAM Act, and other laws and policies. The goal is to equip those in attendance with strong foundational knowledge about the law as it relates to undocumented students, so that they can better understand and support the educational experiences of the undocumented students with whom they work.
