Re: Course Title Revision Proposal – CIS 51 and CIS 351(Prompt Engineering & AI Agents)
Effective fall 2027

Summary of Proposed Change

This memo proposes a revision to the course title for CIS 51 and CIS 351 to better align with the approved course description and evolving disciplinary language in artificial intelligence.

Current Title:

CIS 51 and CIS 351 – Introduction to Prompt Engineering

Proposed Title:

CIS 51 and CIS 351 – Introduction to Prompt Engineering & and AI Agents

Rationale for Change

The approved Course Outline of Record (COR) includes not only foundational prompt engineering techniques but also emerging practices involving AI agents, including multi-step task orchestration, agent workflows, and applied use cases.

The current title does not fully represent this broader instructional scope. The proposed revision:

- Improves descriptive accuracy by explicitly including “AI Agents,” a core component of

DE ANZA COLLEGE CURRICULUM COMMITTEE AGENDA

the course content

- Aligns with industry terminology, where agent-based AI systems are increasingly central to applied AI development
- Enhances student clarity and expectations, ensuring the title reflects the full range of skills and competencies covered
- Strengthens program positioning, particularly within AI-related pathways and certificates

Curricular Impact

- No change to course content, units, or learning outcomes
- No impact on transferability or articulation
- No change to TOP code, SAM code, or program alignment

This is strictly a non-substantive title update for clarity and alignment.
