Dear Classified Senate and DASG Leadership,

I wanted to provide a brief update regarding the Time-Blocked Schedule Task Force recommendation currently moving through shared governance review.

As part of the Academic Senate discussion, a third scheduling framework, *Option C*, emerged for consideration. This option was not developed by the Task Force, was not evaluated during the Task Force's work, and is not part of the recommendation being advanced by the Task Force. The Task Force recommendation remains unchanged.

However, in the interest of transparency and ensuring that all governance groups have access to the same information during their deliberations, I am sharing the *Option C* materials for you to review alongside the Task Force recommendations previously submitted. My intent is to ensure that each constituency has the opportunity to review the same set of materials as the proposal moves through the shared governance process.

Please let me know if you have any questions as you review the materials.

Jose, would you please forward this to the necessary DASG parties?

Thank you,

Sam Bliss
