Instructor: Danny Tran   Email: trandanny@fhda.edu

Course Description: This course is an introduction to data analysis making use of graphical and numerical techniques to study patterns and departures from patterns. The student studies randomness with an emphasis on understanding variation, collects information in the face of uncertainty, checks distributional assumptions, tests hypotheses, uses probability as a tool for anticipating what the distribution of data may look like under a set of assumptions, and uses appropriate statistical models to draw conclusions from data. The course introduces the student to applications in engineering, business, economics, medicine, education, social sciences, psychology, the sciences, and those pertaining to issues of contemporary interest. The use of technology (computers or graphing calculators) will be required in certain applications. Where appropriate, the contributions to the development of statistics by men and women from diverse cultures will be introduced. This Statistics course is a required lower-division course for students majoring or minoring in many disciplines such as data science, nursing, business, and others.

Book: *Introductory Statistics* by Illowsky, Barbara & Dean, Susan
                   A FREE pdf version of the textbook is available at:
                   https://openstaxcollege.org/textbooks/introductory-statistics

Required Materials: Graphing Calculator with statistical tests functions: TI-83 PLUS, TI-84, or TI-84 PLUS
                   is recommended. Access to a computer; we will be using Zoom, Canvas, and Minitab.
                   Course materials and assignments will be posted on Canvas and WebAssign.

Grading: Homework (WebAssign) (12)   180 points
                   Statistics Labs (2)   90 points
                   Chapter Video Questions   30 points
                   Term Project   170 points
                   Quizzes (2)   130 points
                   Exams (2)   220 points
                   Final Exam   180 points
                   Total   **1000 points**

WebAssign: This is the online program we will be using to complete homework assignments. It
                   will cost approximately $45 for online use this quarter. You can purchase access
                   either through WebAssign.net or by buying an access code at the De Anza Student
                   Bookstore. Please follow the below directions:
                   1 – Go to our Canvas course.
                   2 – Click on Assignments
                   3 – Click on any of the WebAssign / Cengage assignments
                   4 – Register for an account

Late Assignment Policy: If you are unable to complete an assignment on time, you may request a 1-week extension from the original due date through WebAssign. Please make the request any time after the original due date. You will earn 50% of the points earned after the original due date.

Quizzes & Exams: Quizzes and exams are tentatively scheduled in the daily schedule on the next page. If a quiz or exam date is changed, I will notify you all in class and on Canvas as soon as I can. If you miss 1 quiz, your final exam % will replace your missed quiz (same rules for a missed exam). If you take all your

quizzes, and your final exam % is greater than your worst quiz %, your final exam % will replace your worst quiz % (same rules for exams).

Expectations:
Math 10 is an incredibly challenging course; be sure you put yourself in the best situation to succeed by having terrific study habits. Below is a list of tasks I recommend that you do to best succeed in this course & prepare yourself:
- ✓ Watch all videos and understand calculator directions
- ✓ Complete all homework
- ✓ Preview each lesson by skimming the lesson for 10-15 minutes before class meets
- ✓ Review your notes each day, making sure you have understood the material
- ✓ Attend office hours (Zoom)
- ✓ Form study groups to complete homework, study for exams
- ✓ Read the textbook
    - o Read explanations & work through the completed examples
    - o Complete extra practice problems

Grades:

A	[93%, 100%]	B+	[87%, 90%)	C+	[77%, 80%)	D	[60%, 70%)
A-	[90%, 93%)	B	[83%, 87%)	C	[70%, 77%)	F	[0%, 60%)
		B-	[80%, 83%)				

Tentative Daily Schedule:

Jan 6 Intro, Ch1	Jan 8 Ch1, Ch2
Jan 13 Ch2	Jan 15 Ch3
Jan 20 MLK Jr. Day – No Class	Jan 22 Ch3, Ch4
Jan 27 Quiz#1 (Ch1-3), Ch4	Jan 29 Ch4, Ch6
Feb 3 Ch6, Ch7	Feb 5 Ch7, Exam #1 Review
Feb 10 Exam #1 (Ch1-4; 6-7)	Feb 12 Ch8
Feb 17 Presidents' Day – No Class	Feb 19 Ch8
Feb 24 Ch9	Feb 26 Ch9
Mar 3 Quiz #2 (Ch8-9), Ch10	Mar 5 Ch10
Mar 10 Ch11	Mar 12 Ch12, Exam #2 Review
Mar 17 Exam #2	Mar 19 Ch12, Ch13, Final Review
Mar 24 Final Exam (1130A – 130P)	

Disability Support Services: If you need disability support services, please email dss@deanza.edu, phone (408) 864-8838, or visit https://www.deanza.edu/dsps/dss/.

Need help with this course? Want to more personal connections this quarter? Student Success Center tutors and workshops are ready for you! Watch the SSC Welcome Video to learn more.

Tutoring: Go to http://deanza.edu/studentsuccess and click to join a Zoom tutoring room during open hours.

Workshops: Attend a Skills Workshop, a content-specific math/science workshop, an Accounting chapter review workshop, or a Listening and Speaking workshop.

Resources: Join the SSC Resources Canvas site to see content and learning skills links.
After-hours or weekend tutoring: See the Online Tutoring page for information about NetTutor (via Canvas) or Smarthinking (via MyPortal).
We know that students who participate in tutoring, group study, or workshops for three or more hours succeed at much higher rates than those who do not. The students who most need the help may reluctant, but they do participate if instructors encourage and incentivize them to use the resources in some way. Perhaps students can improve their grade on an assignment, quiz or exam if they show they did something extra to prepare, such as tutoring, workshop or study group.

We're here to help! Get in touch to schedule a class visit, or
arrange to bring your class to visit us in Zoom to see how it works.

Questions, comments, or suggestions? Contact Co-Directors Melissa Aguilar aguilarmelissa@fhda.edu or Diana Alves de Lima alvesdelimadiana@fhda.edu the appropriate SSC contact.

Student Learning Outcome(s):

• Organize, analyze, and utilize appropriate methods to draw conclusions based on sample data by constructing and/or evaluating tables, graphs, and numerical measures of characteristics of data.
• Identify, evaluate, interpret and describe data distributions through the study of sampling distributions and probability theory.
• Collect data, interpret, compose and evaluate conjectures, and communicate the results of random data using statistical analyses such as interval and point estimates, hypothesis tests, and regression analysis.

Office Hours:

TH	11:00 AM	12:50 PM	Zoom	
M,W,T,TH	08:10 AM	08:30 AM	In-Person	MLC108
M,W	10:40 AM	11:00 AM	In-Person	MLC108
