Course Content and Objectives: Arts 1A is a course in the fine arts that surveys artistic developments from their earliest examples to the present. The class introduces the student to the notions of process, form, content, style and meaning

within the visual arts. The class is, in essence, an examination of the nature of art and the principles by which it operates. The intent is to develop a sense of connoisseurship in the student based on the understanding of a wide variety of dominant stylistic trends or movements and their historical contexts. We will explore the connections and correlations between the visual arts, music, literature and drama, and learn to appraise the quality of works based on an in depth analysis and critical inquiry. We will develop a vocabulary that will permit a reasoned discussion of art and aesthetics, but most importantly, we will learn the language of art that will allow for a lifetime of continued enjoyment and enrichment. The class will consist of slide lectures and reading. If at any time you don't understand something or disagree please ask or respond – questions and discussion are always encouraged.

Assignments: include short weekly quizzes including in class quizzes, a midterm, a final and a paper or "Museum Report." All quizzes, except those in class, are multiple choice as is the midterm and the final. Quizzes will be based on both the reading and the lecture. Tests will consist of image identification, analysis and vocabulary questions.

The analytical paper will be your choice of a traditional art history paper or a museum report. I will publish the guidelines for the paper and the museum report later in the quarter.

Student Learning Outcome Statement (SLO)

Students will analyze the social experiences of artists, demonstrating how artists' relationship with their patrons is a defining factor in the production of works of art.

Students will demonstrate visual literacy and critical thinking skills by evaluating diverse scholarly perspectives when interpreting works of art.

Students will investigate the different techniques utilized in the production of works of art through written analysis based on firsthand evaluation of art objects in local collections.

The course will be graded as follows: Seven semi-weekly quizzes worth 10 points each, Three in class pop quizzes worth a total of 30 points, one midterm worth 50 points, a final worth 50 points and a paper worth 50 points for a total of 250 points. Missing in class pop quizzes may lower your grade! Each quiz or test will be graded as a percentile: 100 -90 % = A 80-89%=B 79-70%=C 69-60% =D. I may add pluses or minuses to borderline grades. For instance an 89% could

yield an A- or a B+ depending on other criteria such as how well the student did on the final or on the paper.

“A” Students will take notes, be active in discussions, understand higher level art concepts and principles, attempt and complete a challenging paper and **actually attend lectures.**

“B” Students will complete work on time, participate in class discussions, understand art concepts and principles, attempt somewhat challenging work, use original ideas and complete work at a satisfactory level.

“C” Students will complete all assignments, complete most work on time, attempt to use art concepts and principles complete less ambitious work and demonstrate an average concern for assignments.

“D” Students will rarely plan their work, look for the easiest way to complete an assignment, turn in assignments late or not at all, refuse to participate in class discussions, lack any understanding of basic concepts and principles and generally demonstrate minimal effort.

Course withdrawal: Once you have indicated your enrollment in this class it is your responsibility to withdraw, otherwise an appropriate grade will be assigned at the end of the term.

Plagiarism or cheating will result in an immediate grade of “F” for the work.

Today’s assignment is to read the introduction in Preble’s “Artforms” or the introduction section to **any art history or art appreciation text.**

In accordance with the Americans with Disabilities Act, De Anza College is committed to providing equitable access to learning opportunities to students with documented disabilities (e.g. mental health, attentional, learning, chronic health, sensory, or physical issues).

You can meet with a Disabilities Support Services (DSS) counselor or Learning Disability (LD) Specialist to discuss any accommodations or specific learning needs you may have. If you have a disability-related need for reasonable accommodations or services in this course, you will need to provide the instructor with a Test Accommodation Verification (TAV) form from the DSS office.

In an effort to support students who do not have access to a computer to complete their coursework, the college is offering the following options:

- For students who may need to borrow a computer, a limited number of computers are available from the college for short-term loan.

- For students in the De Anza College Promise program, we will review each request, and if approved, can increase the amount of their book voucher up to \$500 to help cover the purchase cost of a device from the Bookstore.
- For students who are not in the De Anza College Promise program, the Financial Aid office can check to see if the student is eligible for other aid or an emergency cash grant to help cover the cost of purchasing a device from the Bookstore.
- To be considered for one of these options student should be directed to send an email request to Lisa Mandy, director of Financial Aid and Scholarships, at mandylisa@deanza.edu, and include their name and CWID.
